

Fake-“boss” bounces own company

A conscientious financial accounting employee **receives a task** from the board of directors. Strictly confidential transaction for a company purchase. **50 million euros flow - to shell companies** in China, Taiwan, and Slovakia.

The mail account of the supposed boss **was a fake**, the millions have disappeared. This scam - “fake president fraud” - is constantly on the rise and, according to the FBI, has so far **caused damage of 280 billion U.S. dollars.**

GLOBALTRUST COMPANY

Managed PKI for enterprises

What is GLOBALTRUST COMPANY?

GLOBALTRUST® COMPANY provides companies with a root certificate. The company can issue individual certificates for all employees, services, and devices. If an employee leaves, these certificates can be revoked immediately. Depending on the needs, these certificates can be used for signing and encrypting e-mails, for document signing, VPN services and login purposes (SINGLE SIGN ON). Identity theft, phishing, ransomware and fake invoices are a thing of the past.

Why GLOBALTRUST COMPANY

- **FLEXIBLE** - Customized certificate profiles allow you to present statements that you want - no out-of-the-box-solution
- **TRUSTWORTHY** - Digital signatures prove the origin of a message and secure the integrity of electronic documents
- **EXTENSIBLE** - Ready-to-use implementations available for many popular partner applications
- **SCALEABLE** - Your company grows, GLOBALTRUST® COMPANY grows with it
- **COMPLIANT** - Avoid liability traps according to GDPR due to data leakage – encryption using the latest algorithms is considered a particularly suitable means
- **SIMPLE** - Issue certificates around the clock, without being bound to office hours and processing time

EASY HANDLING AND SYSTEM INTEGRATION

- ✓ Simple usage via common software
- ✓ Established partner interfaces for auto-enrollment or use in Email gateways enable carefree managed PKI
- ✓ Easy integration in popular e-billing, ERP, DMS, and workflow systems
- ✓ Support for the integration of the certificate infrastructure (PKI) into existing systems

PRICING

- ✓ from € 10 p.A. / user
- ✓ best price guarantee*
- ✓ individual contract duration
- ✓ No fees for revocation or changes, pay what you really need

* If you provide us with a binding offer for a cheaper equivalent certificate from an eIDAS-compliant provider within 2 weeks of purchase, we will refund the difference +10%.

- GLOBALTRUST COMPANY **PKI** (Root certificate for private PKI)

"LGV is the largest vegetable producer in the best regions of Austria. Over 150 gardener families and farmers from LGV produce more than 44,000 tons of fresh vegetables annually on their farms in Vienna, Lower Austria and Burgenland.

For the signature and encryption of our Email traffic we rely on the user-friendly COMPANY interface, which immensely reduces the effort of our certificate management, given our number of employees and a corresponding number of PC workstations and devices."

Philipp Leitner,

Head of Information Technology, LGV Sonnengemüse registered cooperative (Vienna)

As a qualified trust service provider according to EU Regulation eIDAS and Austrian national law, operations are conducted under the supervision of the Telekom-Control Commission/RTR GmbH. GLOBALTRUST® is subject to a strict annual quality control by accredited auditors and guarantees a 24/7 operation in ISO-27001-certified data centres.
